

November 2016

Dear Parents/Carers,

I have been approached by a number of parents regarding after school care. We would very much like to provide a wrap-around care for our families.

I know this is an issue for many families, being a parent myself, I understand how hard it can be to juggle the demands of home and work life, and this can often be a deciding factor when looking for a school place for your child. With this in mind I am currently exploring a number of avenues to make this possible.

Could I ask you to state whether or not you would use an after school club if we could provide care till 6pm each evening. I appreciate that there has been some history regarding after school care at East Garforth. I would guarantee that we would have a reliable service with good quality care and would like to know how many families would use the service. By stating that you would use the service you are by no means signing your children up and there would be an opportunity for you to attend an open event to ask any questions before we went ahead.

Please could I ask you return the slip to school by Monday 28th November to help me move forward with our plans.

Yours sincerely

Rachael Binns

Head of Academy

.....

I would/would not be interested in after school care for my child (please delete as appropriate)

Name of child/children and class.....

.....

.....

Any comments.....
